PROFILE

To secure a position in a technology-related field where I can utilize my skills in web development. As a highly motivated self-starter passionate about technology and business, I am eager to learn and contribute to a team. With my background in full stack web development, my boot camp with Front End Simplified, and as the founder/owner of a successful web development agency. I am confident in my ability to excel in a technology/business role.

SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, TypeScript, Python
